Address: Uttara, Dhaka, Bangladesh
Portfolio : hasanujjamanjibon-4480b.web.app/

Career Objectives :

Goal-oriented React developer with a strong foundation in HTML, CSS, JavaScript, React, Tailwind CSS, Firebase, Express.js, and MongoDB. Seeking an opportunity to apply my technical knowledge and passion for clean code to develop cutting-edge web applications that drive business growth.

Skills:

- Expertise : HTML, CSS3, Bootstrap5, Tailwind CSS, React JS,
- Comfortable : JavaScript, ES6, Firebase, React Bootstrap,
- Familiar : JWT, Node JS, Express JS, MongoDB,
- Tools : NPM, Yarn, Chrome Dev Tools, VS Code, Git, Figma, Photoshop, Netlify, Vercel, Railway, Vite

Projects:

- **Chocolate Management** | A Simple CRUD Applications   [Front-End] | [Back-End] | [Live Site]
  - A simple crud application where users have the capability to add new chocolates, delete outdated ones, update product information, and view details of their existing products. The user-friendly interface ensures easy navigation and seamless management of the chocolate inventory.
  Technology – React JS, Tailwind CSS, Firebase Hosting, Express JS, MongoDB.

- **ToyTopiaStore** | A Simple Ecommerce Website   [Front-End] | [Back-End] | [Live Site]
  - A simple web application where users can add and delete their toy items, reset their password, and login using social accounts like Google and GitHub. Access to CRUD operations is restricted until a successful login. The signup and login pages offer password visibility toggles. Users can also sort their items in ascending or descending order. All visitors can search for items on the "All Toys" pages.
    - **Technology** – React JS, Tailwind CSS, Firebase Authentication, Express JS, MongoDB.

- **FoodMania** | Food Recipe Website   [Front-End] | [Back-End] | [Live Site]
  - A simple web application & user-friendly website with clear navigation, showcasing top-rated recipes and partners. Account creation required to access chef profiles and recipes. Mobile and desktop optimized, featuring lazy loading, password reset, and blog download functionality.
    - **Technology** – React JS, Tailwind CSS, Firebase Authentication, Express JS.

Education:

- Bhawal Badre Alam Govt. College, Gazipur   2021 to Present
  National University,
  Master's of Business Administration (Accounting)

Hobbies:

✓ Teaching / Mentoring   ✓ Programming

Language:

✓ Bangla – Native   ✓ English – Comfortable
